

Where to locate Braille Tactile signage to comply with the revised building codes

Specifications:

BCA Amendment 10.D3.6

Location of Braille and Tactile signage

- (a) Signs must be located not less than 1200mm and not higher than 1600mm above the floor or ground surface.
- (b) Signs with single lines of characters must have the line of tactile characters not less than 1250mm and not higher than 1350mm above the floor or ground surface.
- (c) Signs identifying rooms containing features or facilities listed in D3.6 must be located:
 - (i) On the latch side of the door with the leading edge of the sign located between 50mm and 300mm from the architrave; and
 - (ii) In the event of insufficient latch side dimension, a sign may be placed on the non-latch side of the door; and
 - (iii) Where (i) and (ii) are not possible, the sign may be placed on the door itself.
